

The FCC should not implement  
any proposal that would lessen  
Indiana's Telephone Privacy law  
protections!!

I used to receive about 10 calls daily and I'm not exaggerating! It  
makes me angry, many of them would wake us early on the weekends and  
my life has been so much more peacefull since they've stopped. I  
think enough Americans have already made it clear we don't want these  
unsolicited calls. We have a right to peace in our own homes!
